How the realwire translation process works

This diagram illustrates our complete translation process, from order form to final delivery of translation.

The final translation is sent back to realwire for relevant market distribution through their realwire "issue release" service.

The whole process is completed within 24 hours*.

Pricing starts at just £240 for up to 550 words.

Each phase illustrated here, including project management, independent checking, liaison with your sign-off agent and TM management is included in the price.

All of our translators are qualified professionals writing into their mother tongue. We exclusively use translators who are located within the target market which means they stay up to date with local publications, technical 'jargon' and the linguistic developments of their language.

* Subject to document length and the nominated sign-off agents’ availability
