

Fusion UEM - Product Overview

Unified Endpoint Management for mobile and desktop devices

Fusion UEM

Perpetual Licence for lifetime ownership

Unlike other solutions, VXL provides Fusion UEM with a perpetual licence, with no monthly subscription costs, to ensure a lifetime control of your endpoint estate.

Mobile and Ruggedized Device support for all Android and iOS devices.

Includes lock-down, template delivery, app installation and AetherPal* remote control. Also supports ruggedized devices including CipherLab & Tablet Technologies.

Windows OS Support for all desktops and laptops.

Fusion UEM supports Windows operating systems for all PC devices featuring; Windows XP, WES7, WE8S & Win10 IoT.

Thin Client Support for all VXL Windows & Linux OS.

In addition, Fusion UEM will also manage third party Windows based thin clients.

Full Remote Control for all platforms.

Includes; VNC and RDP for Windows and Linux Thin Clients. Also AetherPal* for Android & iOS mobility devices.

(*Additional cost)

Fusion UEM is a complete and easy-to-use unified endpoint management solution for all mobile and desktop devices.

VXL Software's unified endpoint management software, Fusion UEM, can manage almost every device on your network - or mobile network - including smart-phones, tablets, desktops, laptops, thin clients and much more.

Fusion UEM enables you to monitor and manage every device from a centralised console, vastly simplifying device management. Designed and developed with users in mind, work-flows have been enhanced to be simple and extremely easy to use, requiring little or no specialist training.

What's more, Fusion UEM is a low cost solution with clear and simple pricing, and unlike other providers, benefits from an one-off perpetual license payment with no annual subscription costs for lifetime ownership.

Feature-for-feature, Fusion UEM represents a powerful solution and leads the market in terms of affordability.

Key Features - Mobile Endpoints

- Supports Android 4.x, 5.x, 6.x, 7.x, 8.x
- Supports Apple iOS
- Supports Samsung KNOX
- Bulk enrolment
- Self user enrolment
- Full remote control
- Remote Installation
- Password management
- Application management
- Policy and BYOD management
- Security control lock / wipe / alerts / device encryption
- Enterprise Integration
- Lock down Kiosk mode
- GPS tracking / Geofencing

Key Features - Other Endpoints

- Supports Windows Desktop PCs
- Supports Windows Embedded and POS services
- Windows Servers
- Application Install, Uninstall and Provisioning
- Patch and Vulnerability management
- Full remote control
- Remote Installation
- Security control lock / wipe / alerts / device encryption
- System management
- Active Monitoring and Maintenance
- Power management
- USB device management
- Performance management
